- Worked with artists from all over the world;
- Received multiple gold/platinum certifications in different countries (United States of America, France, Portugal);

WEB DEVELOPER (INTERNSHIP) • LOGILOTUS • 2012

- Develop websites for clients using HTML, CSS, JQuery and Joomla;

PROJECTS

WEB APPLICATION – REACT QUIZ - DEVELOPER

A 15-question quiz about React library. The answer is always just one word. User must pick the right letters to find the solution and got a limited number of attempts. This project helped me to improve my React skills, as far as using hooks and retrieving data from external files.

TECHNOLOGIES

React 18.2.0; Javascript ES6; HTML 5; CSS;

MAIN ACTIVITIES

Design; Web development; Testing;

LIVE DEMO

<https://reactquiz-elio.netlify.app/>

WEB APPLICATION – TODAY I LEARNED - DEVELOPER

A single page application where users can read/insert facts, filter through categories and also react to them by leaving upvotes/emojis. This was a great project to learn how platforms like Twitter works, and also helped me to discover Supabase

which is an easy way to build/host databases. Since this project, I've started using Supabase for all my other projects.

TECHNOLOGIES

React 18.2.0; Supabase; Javascript ES6; HTML 5; CSS;

MAIN ACTIVITIES

Web development; Testing;

LIVE DEMO

<https://ilearnedtoday-elio.netlify.app/>

WEB APPLICATION – TO BUY LIST - DEVELOPER

A minimalistic SPA where users can create a list of products by inserting name and price of each product, it will save the information in a database (through Supabase) and it will instantly show the total price for the list. The main goal for this project was to practice using insert/delete, retrieve data from a database and also to create something clean/simple as far as design.

TECHNOLOGIES

React 18.2.0; Supabase; Javascript ES6; HTML 5; CSS;

MAIN ACTIVITIES

Design; Web development; Testing;

LIVE DEMO

<https://tobuylist-elio.netlify.app/>

WEB APPLICATION – FORM - DEVELOPER

An authentication form with a progress bar that will only update/work if the user inserts the right information. This helped me to consolidate my knowledge on validating forms in React and also to learn how a progress bar works.

TECHNOLOGIES

React 18.2.0; Javascript ES6; HTML 5; CSS;

MAIN ACTIVITIES

Design; Web development; Testing;

LIVE DEMO

<https://challengereact-form-progressbar.netlify.app/>

WEB APPLICATION – PORTFOLIO - DEVELOPER

A minimalistic responsive single page application for my personal portfolio where users can download my CV, check my skills and projects that I've worked on.

TECHNOLOGIES

Javascript; HTML 5; CSS3;

MAIN ACTIVITIES

Design; Web development; Testing;

LIVE DEMO

<https://portfolio-eliovieira.netlify.app/>

WEB APPLICATION – DICE GAME - DEVELOPER

A multi-player game based on pig(dice game). Two players take turns to roll a single dice as many times as they wish, adding all roll results to a running total, but losing their gained score for the turn if they roll a 1. This project made me understand the logic behind a multi-player game and it was also a great way to develop my Javascript/DOM manipulation skills.

TECHNOLOGIES

Javascript ES6; HTML 5; CSS;

MAIN ACTIVITIES

Web development; Testing;

WEB APPLICATION – EDICARE - DEVELOPER

A responsive Website(concept) for company Edicare, where users can check Edicare's products information and read other users reviews/rating. I developed this website to improve my CSS (flexbox) skills and it was also the first time that I've used Sass.

TECHNOLOGIES

HTML 5; CSS3; SASS;

MAIN ACTIVITIES

Web development; Testing;

LIVE DEMO

WEB APPLICATION – MOODLE – FULL STACK DEVELOPER

A web application for teachers and students similar to a Moodle, where Teachers can login to the back office, add online classes for a specific course, reply to students' questions and edit their personal details. Students can login, search/watch the videos that each teacher posted and also leave comments. The main goal for this project was to create an online teaching experience for students that missed a class or couldn't go to classes due to physical limitations. This was one of the many academic projects that I've worked on and it was crucial to understand how PHP/MySQL works.

TECHNOLOGIES

PHP, Mysql, HTML, CSS, Javascript

MAIN ACTIVITIES

Web development; Testing;
